**Key Technologies**

Viper security and remote start systems feature the latest technologies developed by our engineers making Viper the industry leader.

Advanced 2-Way security and convenience confirms all commands virtually instantly.

Hybrid vehicle security & remote start systems protect your vehicle and its contents, start your engine with the push of a button and confirm all commands with GhostLight™ LEDs

Responder LC3 2-Way with one-mile range\*, with LCD screen.

Responder HD 2-Way with one-mile range\*, and color OLED screen.

ESP2 is Directed's exclusive serial communications protocol that allows extra ultra-security, high-speed communication between systems and enables many of Directed's key features.

XR+ Extreme Range superheterodyne receiver offers an improved image rejection for certain types of RF interference, resulting in improved reliability.
