# Model: VSM250

## SMARTSTART<sup>™</sup> GPS

### VSM250 is the latest generation of Viper SmartStart , now with GPS!

- Ultimate add-on to any Viper security or remote start system
- Supported by v2.2+ apps on iPhone, Android, and selected BlackBerry smartphones

The new VSM250 combines GPS tracking capability with current SmartStart features. Know where your vehicle is at all times, keep track of and protect family vehicles, and enjoy a keyless connected lifestyle. Remote start or lock and unlock your vehicle and receive alerts on your smartphone if your vehicle is moved or driven where you don't want it driven. You can even share your vehicle's location with family or friends via mail, text, or your Facebook page.

### Key Features:

- Identical to VSM200 – plug-in compatible
- Sell as stand-alone product (w/tracking features only) or in full SmartStart system
- Attractively priced Secure and Premium SmartStart+GPS service plans offered

### Includes:

- Viper SmartStart GPS module
- Power harness
- Data harness with Y-adaptor
- Quick reference user and install guides

# SmartStart GPS Secure Service Plan:

All four of the following features are included in the SmartStart GPS Secure Service Plan. The Viper SmartStart VSM250 can be installed stand-alone or in conjunction with any compatible Viper Vehicle Security and Remote Start System.

## Know Where Your Vehicle Is at All Times

Press a button on your smartphone and receive vehicle's current location, plus speed if it's moving.

## Connected Lifestyle

Want to tell your friends where you're parked? Use one-touch check-in, update your social network.

## Protect Your Family and Your Vehicles

Request a notification when a family vehicle exceeds your specified setting.

Lock down your vehicle with a movement alert and receive notification if your vehicle is moved without your OK.

# SmartStart GPS Premium Secure Service Plan:

The following three additional features are included with the Premium Secure Service Plan:

## SmartFence

SmartFence creates a secure zone around your vehicle so you'll be alerted if your vehicle leaves the zone.

## HotSpot

HotSpot adds a virtual fence around a location so you'll be alerted if your vehicle goes there.

## Scheduling

Schedule time frames and curfews for notifications.
